FOREWORD

This directory has been compiled utilizing the North American Industries Classification System for Canadian Industries (Statistics Canada).

Its purpose is twofold:

1. To facilitate visiting executives and sales representatives from other countries and provinces who desire to do business with Restigouche County establishments.

2. To acquaint resident companies with goods manufactured and distributed in the general Restigouche area, thereby encouraging trade between businesses.

HOW TO USE THIS MANUAL

This manual has been designed in such a manner to facilitate the reader's search for a specific group of industries. The firms are classified in accordance with the North American Industries Classification System (N.A.I.C.S.)

The primary step is to look at the Table of Contents for selection of the industrial sector the reader wishes to leaf through, (take note that there are 16 sectors); and proceed with the identification of the N.A.I.C.S. group and page number associated with that specific group.

The reader should then turn to the referred page(s) in order to select the firm(s) desired for more information.

Should the reader be searching for a specific company, the Index commencing on page 118 is at one's disposal. All firms included in the Directory have been listed in alphabetical order with page number.

A quick reference guide is also available at the end of this document.
